NEW-YORK UNIVERSITY. -At a meeting of the stockholders of this institution, held in the Council room, University Building, Washington square, at 9 o'clock a. m., yesterday, the following gentlemen were elected me mambers of the Council for the next four years: Thomas DeWitt, D. —It has already been stated that the American Bank Note Company of this country have a contract with the Russian teovernment for bank note engravings to a large amount, a fact alike creditable to this Company and to the skill of the workmen in their employ. We learn, however, of a serious but not irreparable misadventure to the undertaking, news having been received in this country that a vessel in which had been placed the first installment of the engravings, &c., contracted for, with seven persons in the employ of the Company te work off the hank notes, had been lost on the voyage from England to Russia, with all the materials, and that one of the printers was drowned.

GOT HIS DESERTS. Frederick Lawrence Jacob Johnson, a Swede, yesterday went into the bigar-heer saloon No. 152 North William street, and officed a gross insult to the vice of the proprietor, a German lady. Some friends of the lady took her part, and admitistered to hir. Johnson mean a threshing as will probably deter him from a like proceeding for some time to come. During the disturbance, Mr. Johnson received a severe out on the head, which required the attention of a physician.

TO CORRESPONDENTS.

Whatwer is intended for insertion must be authenticated by the
name and address of the writer—net necessarily for publication, but as a guaranty for his good faith.

Owing to the recent great increase in the circulation of THE DAILY TRIBURE, and the necessity of putting the first form of the paper to press at an early hour, we are compelled to give notice to our friends that hereafter all advertisements ust be handed in before & o'clock in the evening, with the sinmust be handed in before a cubca. In the evening, with the sub-gla exception of those intended for insertion among the Business Rotices on the fourth page of the paper. That class of adver-itienments will be received until a late hour, but no others can be taken after 8 o'clock.

For list of Voting Places see special notices on our first page.

TO-DAY, ABRAHAM LINCOLN will be chosen President and HANNIBAL HAMLIN Vice-President, unless Fraud should prevent, for Apathy will not. There is no chance for the Fusionists but in illegal veting. Will you stand by to cut off that chance?

Do not say, "Others will attend to it." A hundred men at a poll can and will do more to prevent fraud than ten men can do. Fusionists whom you know to be recent comers to our City, or lacking complete naturalization, or not yet of age. or convicted felons, or otherwise disqualified, will come up to vote, and, if they see no one who knows them pretty well, will offer ballots; while if they see you on hand, they will slink off. Ten Thousand Republicans watching for illegal voters all day in our City and Brooklyn will keep out Ten Thousand illegal votes. And that may make the difference between our triumph and our failure. For we shall be cheated some thousands at best; but whether we shall or shall not be cheated enough to defeat us depends on your fidelity, Republicans! To-DAY!

We are requested to give notice that the Breck juridge State ticket, headed by the popular name of JAMES T. BRADY, has not been withdrawn, but will be voted for to-day in this City and throughout

THE TRIBUNE, as usual, will make a special collection of election returns for its readers this evening. Canvassers will oblige us by extending the usual courtesies to the gentlemen engaged in the work, each of whom will be furnished with written authority to act for us.

We call attention to the appeal in behalf of AMOR J. WILLIAMSON to the citizens of the IIId Congressional District, which will be found on another page. We think no candid man can read it without being convinced that Mr. Williamson ought to be elected, and above all that Mr. Wood ought at any rate to be beaten.

The truly conservative merchants of New-York replied yesterday to the folly and menaces of the Committee of Fifteen in the great meeting at the Exchange, of which a tull report is given on another page. It is well understood by all sensible men that the true way to secure peace and tranquillity is to elect ABRAHAM LINCOLN, and to give him an enormous majority.

The Republican Central Campaign Club has made arrangements for receiving the earliest returns of the city and general election to day. Runners are engaged to convey the news from the Police Headquarters to No. 722 Broadway, where a committee of Wide-Awakes will be awaiting the reports of their members. Telegraph connection at the La Farge House is retained to keep open all night, so that the news received at the Wall street general office will be remitted without a moment's delay to the Club Headquarters.

Henry A. Wise made a speech yesterday at Portsmouth, Va. He declared before God that he would never submit to the election of Lincoln, but didn't say whether he should proceed against the Rail-splitter by personal assassination, or by marching a force against the United States Treasury and the White House. Wise doesn't seem to have read George Sanders's letter, which forbade Virginia from going out of the Union, and only allowed that luxury to the Cotton States. Mr. Wise ought to take warning by the fate of John Brown. However, he might very probably escape hanging, and be sent to a lunatic asylum. At any rate, Gov. Letcher and the legal authorities of Virginia will be able easily to take c re of him.

We have five days later European intelligence, by the Adriatic at this port yesterday, and the Persia at St. John's on Sunday. The latest dates -brought by the Persia-are of the 28th of Oct. The Warsaw Conference had abruptly adjourned on the 26th of October owing to the sickness of the Empress Dowager. Nothing definite is known of its action. The Austrian Government had proposed a mediation with France for a settlement of the Italian question. The same Government had granted a new charter embodying States. liberal concessions to the Hungarians, Croatians and others, and an order had been issued to prepare for the coronation of Francis Joseph as King of Hungary next Spring. A semiofficial article has appeared in the Paris Constitutionnel on the subject of French policy in Italy. It sustains the Emperor's position of non intervention, and closes by saying that "an organized and powerful Italy is henceforth for the interest of Europe." Victor Emanuel was expected to arrive at Naples on the 28th of October. Cajazzo and vicinity have been evacuated by the Royalists, and the line of the Volturne has been abandoned for that of the Garigliano. It is hoped that Capua will also soon be evacuated. The British Legtion in Garibaldi's army had encountered the Royalists at Capua, and came off victorious. The English Admiral was going to Gaëta to protect the King of Naples in his flight from that place. The Russian Legation at

lowing concise statement of the law: In the City of New-York, and there alone, these

ballets must be indorsed with words, "President number one." This is the provision of a law passed April 14, 1855; and this provision refers to this City alone.

In all other parts of the State, the ballots must be indersed with the word "Electers." This is required by an act passed in 1842, which remains unchanged, except with regard to the City.

CHALLENGE FRABLESSLY!

Let no man be challenged from spite or frivolity, none to delay the polling, none whose right to vote is clear; but let no one who has been reported, on due inquiry, as unqualified, or as one whose right to vote is questionable, escape a challenge. Everything depends on our success in keeping out the votes of those who have been fraudulently registered, or who will offer to vote in districts where they voted last Fall, but whence they have since removed. We want but naked justice; and, if the fraudulently registered will keep back, all the legal votes can easily be polled. If the bogus voters attempt to vote, it will be their fault, not ours, if they block the polls, and thus deprive legal voters of their rights. Challenge every stuffer or dubious customer fearlessly and put the oaths to him; if he takes them, be ready to arrest all whom you know to be bogue. But, Republicans! no challengers dare do their duty unless well backed by you. Be ready, then, to stand up for fair play wherever your services may be needed. We want our legal rights-no less, no more. See that we have them !

DO NOT GRUDGE ONE DAY!

Give it freely! Give it all! Haste to the polls early this morning and vote; then divide yourselves into squads for alternate watching and working until the last vote shall have been cast and the polls formally closed. After that, a few will suffice to watch the boxes until the votes are duly counted. But do not grudge your country your best exertions during the whole of To-DAY!

CLOSE AT SUNDOWN!

See that the polls are closed at sundown! The Fusionists will try to keep them open half an hour longer in their strongholds, so as to rush in more illegal votes. The sun sets to-night at 4:50. Demand that the polls be closed promptly at that

VOTE EARLY!

Let no Republican think of private business this morning till he has first done his most obvious duty to his country. Vote first, then watch for stuffers and repeaters! Let us poll our every vote as early as possible To-Day!

AFTER THE ELECTION.

In their extreme anxiety to defeat, no matter by what desperate means, the election of the Republican candidate for the Presidency, our anti-Republican opponents quite overlook the position in which they are likely to find themselves after the election is over. They will have elevated the Republican party into the position of being the champion of the Union, while they will find themselves exposed to the obloquy of having threatened and plotted disunion, without having the courage to carry it out. It being found that the election of Lincoln has been attended by none of the disastrous results so freely prophesied as certain to follew it, and that the machinery of the Federal Government continues to work just as before, a strong reaction may be expected, both at the North and the South, against those who are now laboring to create unfounded panics. The very calumnies now so unscrupulously advanced against Lincoln and and being refuted by experience, will naturally rebound upon the heads of their authors.

Finding that the charge of an intention on the part of the Republicans to undertake the abolition of Slavery in the States is destitute of the least shadow of foundation, the slaveholders will soon learn to submit with a good grace to a transfer of political power, so far as the Federal Administration is concerned, which the progress of population has made inevitable. Indeed, there are many among them who will look with complacency upon the changes with which the accession of Lincoln will be attended. The notorious corruption and extravagance in the administration of our national affairs, during the last four years, have been not less clearly seen and sensitively felt in the South than in the North. An honest and decent Government, and a set of office-holders of whom respectable men need not be ashamed, will be welcomed there as well as here. Whatever uneasiness may be felt at the incoming of the Republicans will, on the whole, be more than counterbalanced among the most intelligent class by the going out of the Democrats. The existence of the Bell-Everett party in the Southern States is a result of the dissatisfaction which pervades those States with the Democratic rule-a rule which has become more and more distasteful since the dissolution of the old Whig party has destroyed any effectual resistance to it in those

While this is the effect, at the South, of a Republican triumph, similar results may also be expected at the North. In spite of the charges brought against it, the progress of the Republican party, in attracting to its ranks the solid, sober, intelligent middle class of the Northern population, has been very remarkable. This progress, after the triumph of the party in the Presidential election, and the transfereto it of the administration of the Federal Government, will receive a new impulse. The good men whom timidity, or caution, or prejudice, have hitherto kept aloof, will then step forward to join it. There is also another large class of no very decided opinions, but who have a fancy for being on the strong side. Thus strengthened, nothing but their own folly, or divisions among themselves, can deprive the Republicans for years to come of the administration of the Federal Govern-

OUR COUNTY TICKET.

We to not claim that every man nominated by the Republicans is fitter and better than all his antagonists; but we do say that impartial men who graphed the Sardinian Minister at St. Petersburg know all the candidates must concede that our to demand his pas ports. Breadstuffs quiet but ticket is, as a whole, the strongest and most deserving. If any one knows any Republican candidate to be unfit or unworthy, let him vote against that candidate, and induce others to do so; if not, let him vote the whole ticket, which has a better

good men-they are worthy and capable. Each has at least two opporents, and can be elected if his friends will. Let us see that they stand at the head of the poll to-night.

LOOK OUT FOR SAILORS!

We again refer to Sailors. No man who hap pees to be here, or happens to be anywhere else, is entitled to vote because he is a seafaring man, whether in the merchant, naval, or revenue service. Like all other citizens, he may vote only where he has been a resident of the State one year, and of the county four months, where he offers to vote. The law is explicit: 'No person shall be deemed to have GAINED or LOST a residence by "reason of his presence or absence, while em ployed in the service of the United States, or while engaged in the navigation of the waters of this State, or the United States, or of the high seas, nor while a student of any seminary of learning, nor while kept at any alms-house, or other savium, at public expense, nor while con "fined in any public prison."

That is, the legal residence of all such persons is n that County where they last resided four months, and that State where they last resided one year. They are entitled to vote there and nowhere else, until actually resident for the required time in a County or State as aforesaid. The locality of the vessel to which a seafaring man belongs, does not, as is generally supposed, give him a right to vote in that

But advantage is to be taken, it is said, of this erroneous notion to poll a large number of Ilegal votes to-day, as the votes of sailors. Vessels, with men in the garb of sailors, are to drop round. from point to point, in the two rivers, with the injunction "to vote early and vote often." Look out for them! Challenge peremptorily every man who offers to vote because he is on board a vessel in this port. He has not " gained" a residence by the accident of being here, and must go, if he is entitled to vote at all, to the place where he last had a permanent home for the time the law re-

JUDGE GREENWOOD FOR LINCOLN.

One of the most cheering signs of the times is the important accessions which we are making to our ranks. The best men of the Democracy are coming over to us. They have of late multiplied so rapidly that it is very difficult indeed to keep the run of all of them. Among the latest converts that we have heard of is Judge Greenwood, of Brooklyn. This gentleman, heretofore a thorough going Democrat, has, within a week, announced his determination to vote with the Republican party. The Judge is the acknowledged leader of the Brooklyn bar, and has been a prominent candidate in convention for the nomination of Judge of the Supreme Court, and for City Judge; but was, as usual, overborne by more available, because less able and conscientious men. Disgusted by the miserable attempts which have been made to combine the adverse elements of the Opposition upon the platform of public plunder, without regard to principle, or party ties, he has concluded that duty and patriotism required him to vote for Mr. Lincoln. Having made up his mind to cut locee from Sectionalism and Disunion, like an honest man, he has come out publicly and boldly and declared his principles. His defection is a severe blow to Fusion in Kings County, and a great gain to the good cause.

HOW TO CANVASS.

By the laws of the State the ballots to-day must

be canvassed in the following order: Box No. 1-President.

Box No. 2—State.
Box No. 3—Congress.
Box No. 5—Assembly.
Box No. 6—City and County (Register).
Box No. 8—Judiciary.
Box No. — Supervisor.
Box No. — Constitutional Amendment. And the Chairman of the Canvassers must, as

be well for bystanders to make notes of these preclamations, as they may be useful where the vote is so close as to lead to contests for seats.

ONE VOTE

made WILLIAM PENNINGTON Speaker of the present House of Representatives, and silenced the howl of Disunion for months. ONE VOTE may decide the complexion of the next House. Reader! look to it, that, should that one vote be lost, it be not yours!

COOL FOR THE SEASON.

James and Erastus Brooks exhorting Adopted Citizens to vote for the Bell-Everett Electors on the Fusion ticket without a scratch. It is a likely thing for them to do, especially on such direction.

REPUBLICANS! the repudiation of the Missouri Compact, the brutal bludgeoning of Charles Sumner, the wanton outrages that so long desolated Kansas, the infamous Lecompton outrage, and all the long series of plots and crimes by which Kansas and Nebraska were temporarily subjugated to Slavery, all come up for review To-Day! Let there be no thought of vengeance, but a joyous though solemn ascription of gratitude to God that the hour, long and anxiously awaited, that strikes down the sword of the oppressor and strikes off the shackles of the despot has come. We will not exhort you to improve it-we know you will! All together now for Justice, Peace aud Freedom !

Wheever wants to see the immense crops of corn and wheat, raised last Summer in the West, brought to market this Winter; whoever wants to see the cattle and pork of the prairies move this Winter to the seaboard; whoever wants to see cloths and calicoes, dry goods of all sorts, boots, shoes, hate, clothing, teas, coffees, groceries of every kind, go back in exchange for these great staples; whoever wants to see the immense and unprecedented activity which the interchange of these commodities is to give to all the railroads of the country; whoever wants to see ships under the American flag hurrying to and fro to all the ports of the earth laden with American products and manufactures, and bringing back the merchandise of all the nations; whoever, in short would hail tomorrow a renewed business activity, the recovery from commercial prostration, a season of returning confidence, of healthful vigor, a new era of prosperity, and peace, and pleuty, let him east his vote to-day for the Republican ticket, and induce as many more as he can to do likewise. If he is chance of success than any other. Especially let | idle to-day, an idleness may follow it that he may

many men in this city.

If you own stocks and went to keep them at a low figure all Winter, and to compel the Directors to pass the January dividend as a matter of precautien, vote for Fusion. If you have a store full of goods, which you are anxious not to seil, vote to defeat the election of President by the people. If you are interested in ships, and are arxious to see a lull in the carrying trade, try to carry your district against the Republican ticket. If you are a carpenter, or a mason, or a painter, or a plumber, and wish to see capitalists cautiously locking their money up, instead of putting it out in real estate and building, be sure and give today to Democratic labor at the polls, and you will bave plenty of leisure to reflect upon the deed for the rest of the Winter. If you are a clerk or a salesman, and are anxious that your employer shall reduce the force in the store before January, go in for Fusion. In short, whoever wants con-fusion worse confounded" for four months o come, let him begin with Fusion, and he is ure of the other syllable.

Republicane! vote early. If you wait until noon you may be two hours in getting to the polls, and then be told that you are not registered. The Fusioni-ts have kept off as many Republican names as possible, so as to creste delay on our side-send ing the best known citizens in search of witnesses to swear fh their votes; and all the while the Fusion votes will be crowded in. A Republican who has lived several years in the IVth District of the Ninth Ward, and voted at every election, was obliged last year to spend two hours in getting in his vote, because his name had been purposely left off. This year, in spite of his vote last November, he was again omitted, and, on searching the list, he found that several of his Republican neighbors had been served the same way. Do not depend upon finding yourself registered unless you have seen your name written down this year. Come up early! and if you are unregistered you will have time to compel respect for your rights.

AMOR J. WILLIAMSON and JOHN Y. SAVAGE are two respected and worthy mechanics who have risen from poverty and obscurity by industry and integrity to respect and competence in our Hid (down-town) Congress District. All they have, whether of property or reputation, is identified with that District. Ben. Wood has got rich by lotteries and lottery-policies-both strictly forbidden by our laws. We do not consider it a serious objection that Mr. Wood does not really I ve in the District; but we certainly think it a recommendation that Williamson and Savage have so long employed honest labor in it, and have made their way in the world by means which benefited instead of impoverishing others. Republicans of the IIId District! do your utmost for Williamson! Democrats who live by honest industry! work like heroes for Savage! Neither of these will ever shame those who trust him.

The Herald gives the following as the net result of the recent panic in stocks, created by the Disunion furore North and South:

Nov., 1858. Nov., 1860. Ternessee 94 North Carolina 98 Missouri 90 6 per cent. 5 per cent. 131 per cent. 8 per cent.

Average depreciation...... 8 per cent Observe: All these stocks are in the Southern States; Federal stocks and Northern State stocks have not moved a jot. The more noise the South makes, the more she will injure her own credit, and that is all she can do. If she chooses "to bite " off her own nose to spite her face," let no man be frightened thereby from voting for prosperity and peace.

Why should any man vote the hybrid and hopeless Electoral ticket got up mainly as a Southern the Republican party, having failed of their effect, each box is finished, make public proclamation of advertisement for dry goods and hats? What is the object of that ticket ? Confessedly not to eleca President, but to prevent any election by the people, and throw the election into the House of Representatives. Will that result tend to peace, tranquillity, and a healthful state of affairs? No It will tend to agitation, disorder, uncertainty, and deraugement. How much better, then, to vote for Lincoln, and settle everything at once. How much better to give him a majority which will render the idea of rebellion preposterous.

> HONEST JOHN COMMERFORD ought to represent the IVth District in Congress. He has given the better part of his life to a great and good workthat of commending the Freedom of the Public Lands to popular approval and support. He has worked these thirty years for the Millions, and is of course poor: his competitors have worked for themselves, and are, though far younger than he, comparatively rich. Workingmen of the IVth District! in voting for Commerford, you will vote for nourselves; in voting for Kerrigan and Tuomey, you will be voting for themselves. Do yourselves justice in the choice of a Member of Congress!

Let no voter forget our excellent ticket for STATE OFFICERS. MORGAN and CAMPBELL have already earned the public gratitude; BARNES and BATES await but opportunity to do so; and that opportunity is at hand. The paltry, contemptible attacks on Gov. MORGAN because he asked a member of his staff to resign his place a the table to the Lieut.-Governor, must react in his favor. His vetoes of the Gridicon and kindred jobs tell their own story. And corruption never had a more sharp sighted, unrelenting foe than ROBERT CAMPBELL. Let them have justice at your hands to day !

ABRAM WAKEMAN or Isaac C. Delaplaine will represent the VIIIth (up-town) District in the next Congress. Each has a character and a history-will the voters inquire into them, and decide between them? Delaplaine inherited wealth, and has erjoyed it: but what has he ever done for his less fortunate fellow-creatures, for our City, for mankied? Echo answers, What? WASHINGTON, Monday, Nov. 5, 1860. THE ELECTION-NEW-YORK.

The excitement in this city is very great. Aff yes are directed upon New-York. The Breckinridge men especially, are desirous that the Fusion ticket should be successful. They hope if the election goes into the House, to prevent a vote until the 4th of March, and then elect Joe Lane in the Senate. The Douglas men, on the other side, knowing that Douglas cannot be elected, say they would "rather see the devil than one of their bitterest enemies" elected. The Douglas men will be worse off than East Indian Pariahs. A war of extermination will be waged against them until their leader is killed, and none of them left. If Lincoln should be elected, the Douglas men know that they only have to do with a political enemy whom they may be able to defeat at the next election. They know that if any one of the seceders should be elected, the Democratic party will be entirely dead in 1864. The question, therefore, is with them, to be or not to be?
